SUMMARY

Dedicated and efficient full stack developer with 7 years of experience in application layers, presentation layers, and databases.
Proficient in building and optimizing user-focused websites and applications. Creative when crafting effective websites, apps and platforms to propel competitive advantage and revenue growth. Technically proficient and analytical problem solver with calm and focused demeanour.

EXPERIENCE

Backend Developer

CaseNine

📅 05/2016 - 03/2018   📍 Amersfoort, NL

- Implemented a RESTful API to securely allow custom-made clients to traffic data in JSON/XML.
- Developed server software for managing user accounts in Python/Django.
- Developed the back-end of a system that manages the billing of clients for companies.
- Created unit tests for all API endpoints using Mocha with HTTP mocking.
- Made API endpoints using JSON schemas to model and validate the input and output.
- Stored data for the back-end in Firestore from Google Cloud.
- Served the API endpoints as serverless Google Functions and attached them to Firebase URLs.

Full Stack Developer

SHORE teams

📅 04/2018 - 08/2021   📍 Amsterdam, NL

- Developed a website that allows users to offer and book services online. The project was developed from scratch, with no previous structure, source control, coding style, or technologies
- Built the website as an MVP solution, which means it was developed as quickly as possible.
- Refactored a front-end application by introducing Material-UI components and reengineering the complete architecture to make the code readable, scalable, and optimized for specific usage.
- Maintained three front-end apps, one submodule, and mentioned library in terms of blockchain integrations.
- Collaborated closely with smart contract developers, back-end developers, web designers, and product managers to align requirements and expectations

Blockchain, lead developer

HiFi Gaming Society

📅 08/2021 - 02/2023   📍 Remote, USA

- Worked on the development and implementation of new blockchain technologies and completed professional market research.
- Built and maintained strategic relationships with potential investors and business partners and brainstormed new ideas
- Created HiFi Token and launched onto CoinMarketCap.
- Won the Employee of the Month Award once for finishing all assigned projects within budget and schedule.
